What are cookies?

Taken from <http://www.whatarecookies.com/>

“Cookies are small files which are stored on a user's computer. They are designed to hold a modest amount of data specific to a particular client and website, and can be accessed either by the web server or the client computer. This allows the server to deliver a page tailored to a particular user, or the page itself can contain some script which is aware of the data in the cookie and so is able to carry information from one visit to the website (or related site) to the next.”

Types of cookie.

Generally, there are two types of cookies:

Session cookies – these are deleted as soon as you close your browser. Persistent cookies – these are stored on your PC until you delete them or they reach their expiration date.

Cookies may be placed on your PC by hibanacon.co.uk, these are “first party cookies”. First party cookies are created and used directly by hibanacon.co.uk. 3rd party services that are used by our website may also place cookies that can be used by them outside of the hibanacon.co.uk website.

You can choose to block or delete cookies through your browser settings at any time.
